FIRM FACTS

STRATEGIC GROWTH INITIATIVES

In 2010, Heery International became an affiliate of Parsons Brinckerhoff, one of the world's leading professional services companies, and now operates as its buildings division. This association gives Heery access to dramatically increased resources and opportunities. As part of this realignment, two of Heery's previous acquisitions—Charter Builders and Barnhart, Inc.—became part of another sister company. Both Heery and Parsons Brinckerhoff are wholly owned subsidiaries of Balfour Beatty plc.

STRATEGIC ADDITIONS

Over the past five years, Heery has expanded through new business and acquisitions, including:

- Heery America, a subsidiary handling projects for clients who require secure work support on sensitive projects or within sensitive spaces. Launched Summer 2004.
- HLM Design, design firm specializing in healthcare and justice projects. Acquired Fall 2004.
- JCM Group, FPM and Stratus, firms specializing in higher education, corporate and government work in Southern California. Acquired Winter 2005.
- Charter Builders, with specialties in K-12 education and corporate. Acquired in spring 2006.
- Sequeira and Gavarrete, design and program management firm with specialties in aviation and commercial projects and focused on the South Florida and Latin American markets. Acquired Spring 2007.
- Barnhart, Inc., construction management at risk and design build firm specializing in government and education. Acquired summer 2008.
