

COMMUNITY SERVICE

WHAT

HEERY INTERNATIONAL COMMUNITY SERVICE MONTH

To unify its community service efforts, Heery International created Heery from the Heart National Community Service Month, which is held throughout the month of April. Individual offices create an event or participate in an existing event focusing on one of three areas:

- Children/schools
- Environment
- Home building/repair

CORPORATE GOALS

Heery believes National Community Service Month affords the opportunity to give back to the communities in which we live and work in a nationally organized manner. National Community Service Month also serves to unify employees whose offices are scattered throughout the country. Despite multiple locations and diverse activities, employees are working toward a common corporate goal – that of giving back to the community in April.

Other benefits include:

- The strengthening of staff relationships
- An opportunity to feel good about helping meet community needs
- Greater visibility in the community and among prospective clients
- Greater media opportunities
