

WHAT OTHERS SAY

"During the development of these and other projects, Heery staff has worked with hundreds of our staff and have always done so in an attentive and patient fashion. They have very capably taken the input of our staff and developed creative solutions while simultaneously meeting the financial and schedule parameters of the projects." ...

John H. Staley, Ph.D., Senior Associate Director
University of Iowa Hospitals and Clinics

PERFORMANCE & PROFESSIONALISM

"The Poudre Valley Health System has been closely affiliated with Heery International, Inc. for the past six years and (we have) trusted ... them (with) the most significant strategic development that I have ever participated in my entire career, specifically the design and construction of Medical Center of the Rockies in Loveland, Colorado. ... I can say without hesitation that trusting my entire professional career to (Heery) ... was one that I would make again in an instant."

Rulon F. Stacey, Ph.D., FACHE
President/CEO
Poudre Valley Health System

" ... While my tenure as president had not yet begun prior to groundbreaking, I have been told that our design and construction team became students of Gallaudet, exploring the deaf and hard of hearing world we teach, learn, and work in to translate our unique visual needs into design and construction features. ... Without question, the SLCC (Sorenson Language and Communication Center) has set a new standard for campus buildings." ...

Robert R. Davila, President
Gallaudet University

"Heery's commissioning team provides our district with valuable insight, thorough analysis and clearly articulated guidance into building systems and their related problems. This insight has enabled us to anticipate and prevent common problems and provide timely solutions to other issues needing constant supervision." ...

Paul D. Peterson, Superintendent
Scappoose (Ore.) School District

"I've worked with hundreds of contractor representatives ... and engaged in hundreds of projects involving many millions of dollars. With no hesitation ... I will state publicly that (Heery is) one of the best." ...

Dr. Frank K. Toda, President
Columbia Gorge Community College

HEERY

WHAT OTHERS SAY

"Every day on the job, the Barnhart Crew worked to ensure that this was not just an ordinary facility, but a place that they would be proud to say they built. ... They did all of this at no profit to their company, and rallied many of their subcontractors to donate their time and talents as well. ... Their skillfulness and professionalism during the planning and construction phases led to our obtaining LEED Certification". ...

William Lennartz, President and CEO
Ronald McDonald House Charities of San Diego

"We appreciate the significant amount of time that ... Heery spent with the hospital board, medical staff, department supervisors and employees in designing the plans for our hospital. Heery's knowledge and experience provided the Community of Holyoke with a facility that was well within the initial budget for the project and is a very striking and beautiful building." ...

Shelly Larson, Chief Financial Officer/Owners Representative
East Phillip County Hospital District, Melissa Memorial Hospital

BUDGET & SCHEDULE EXECUTION

"That the Pennsylvania Judicial Center was brought in on budget (and) on time is a testimony itself to the quality of the construction management team that Heery put together." ...

Thomas B. Darr, Deputy Court Administrator of Pennsylvania
Administrative Office of Pennsylvania Courts

"I would like to recognize the onsite construction management team ... for their hard work and leadership in overseeing both the design and construction activities on this phase of the FDA Consolidation Project. Despite the programming, schedule, and political challenges involved in the project, Building One was delivered to the FDA for move-in on time and within budget."

Shapour Ebadi, GSA Project Executive
FDA Consolidation Project

"We gave Heery ... the ultimate challenge – to construct an ambitious expansion and renovation to the Cotton Bowl at Fair Park in an exceedingly short time frame, without a lavish budget and with required historical regulatory approvals. (Heery) met the challenge and delivered the project on time and on budget."

Paul Dyer, P.E., Director, Park and Recreation Department
City of Dallas

"I would like to take this opportunity to express my appreciation to the Heery team in its effort on the recently completed Multiprogram Research Facility (MRF) at the Oak Ridge National Laboratory (ORNL) ... Your team delivered a complex, high security building within the Guaranteed Maximum Price (GMP) under an accelerated schedule." ...

Keith Dempsey, Project Director
Oak Ridge National Laboratory
